ANDROID / IOS USAGE GUIDE

Use this guide for detailed information on using our Streaming TV service with Android/IOS Mobile platforms.

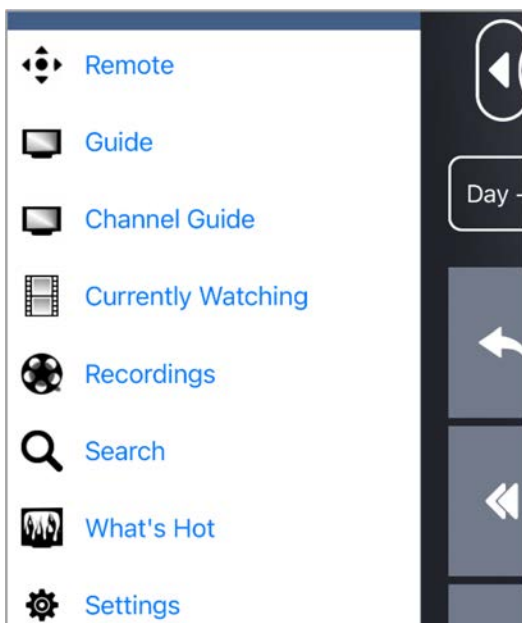

Downloading MyTVs Application

1. Download MyTVs application from an application store
2. Select the MyTVs icon from the screen and select new account
3. Follow the steps to link your video account
4. Select menu on your TV remote control
5. Arrow down to Settings-Apps-Device code
6. Your code will appear in the "Manage Your Devices" screen
7. Enter the Device Code into your MyTVs app
8. Click "Pair Device"
9. Enter the 8-digit password into your app
10. Click "Pair Device" and enter an account name

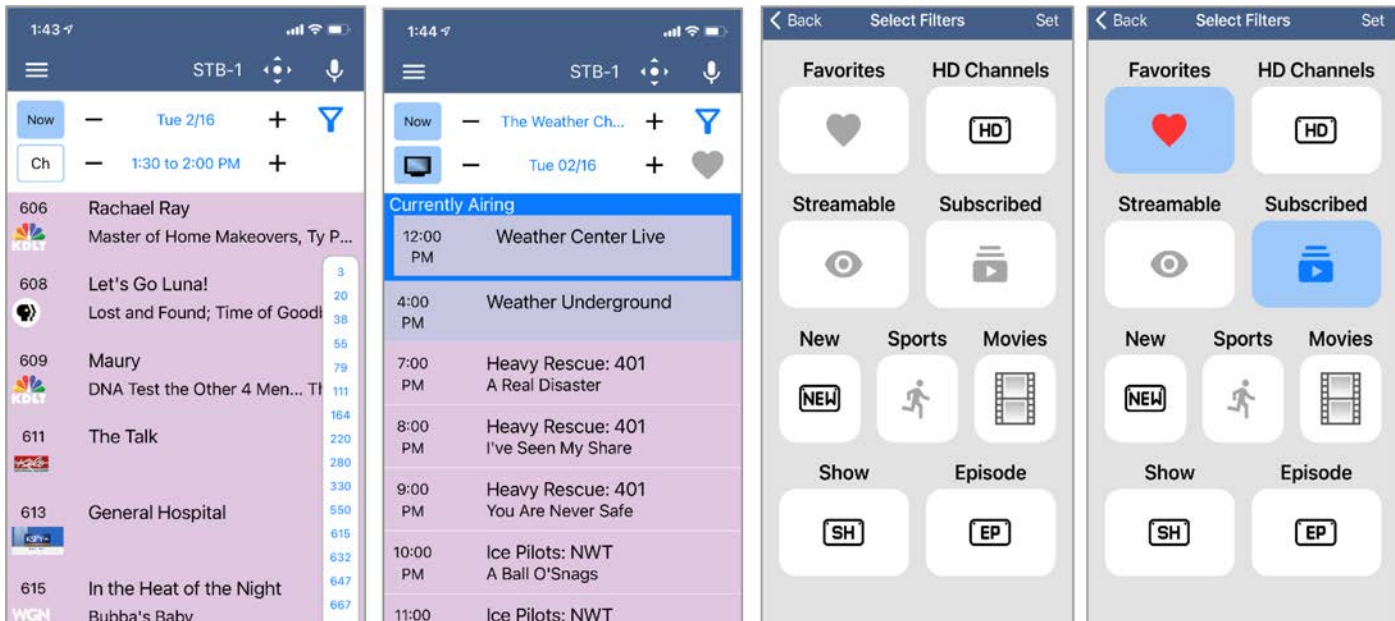

MyTVs Menu

The following sections provide details for accessing the program guide, searching for a specific program, showing existing recordings or scheduled recordings, and using your smartphone to watch programming.

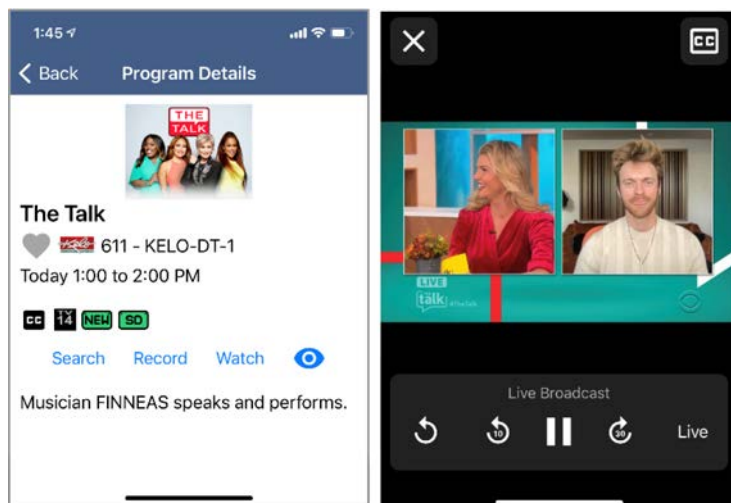

- Remote:** This action allows you to use your smartphone as a functional remote.
- Guide:** Allows user to view guide information by time and date. Programs may be selected to view program details, schedule recordings, and watch programming.
- Channel Guide:** Allows the user to view guide information by channel. Program may be selected to view program details, schedule recordings and watch programming.
- Currently:** Shows the user what is currently being watched on selected devices.
- Recordings:** All scheduled recordings may be viewed within the recordings menu and manage / delete recordings.
- Search:** Allows user to search titles, programs, or keywords for a specific program. Search results may be selected to view program details and schedule future recordings.
- Whats Hot:** Real-time information about the most popular watched programs in the users area. Program may be selected from within "What's Hot" to view details or recordings.
- Settings:** Users can manage their account, switch accounts, add devices and refresh user data.

Mobile Program Guide

1. To view the program guide data by time, select **Guide** from the MyTVs Menu at the top left corner of the app screen. If a user would like to view the program guide data by channel, they should select **Channel Guide** from the MyTVs Menu.
2. Begin browsing the Program Guide by swiping left or down for other shows in the same time slot, right for the next timeframe, or use channel numbers on the right side.
3. To filter the program guide, click the Filter Funnel icon. Click on any filters to have them applied to the program guide content and click "set".

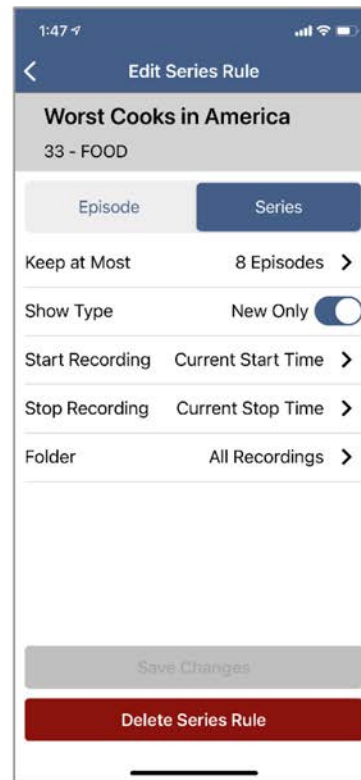

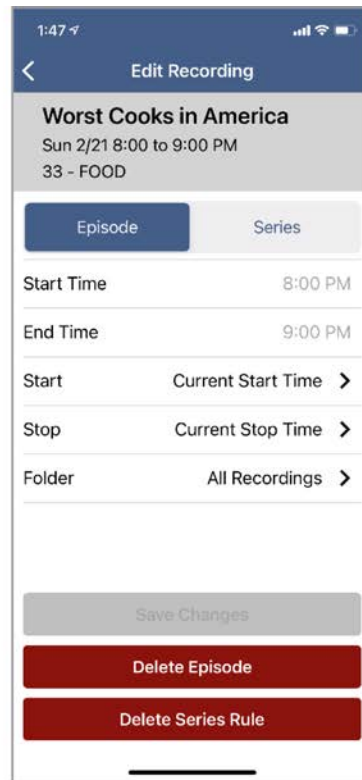

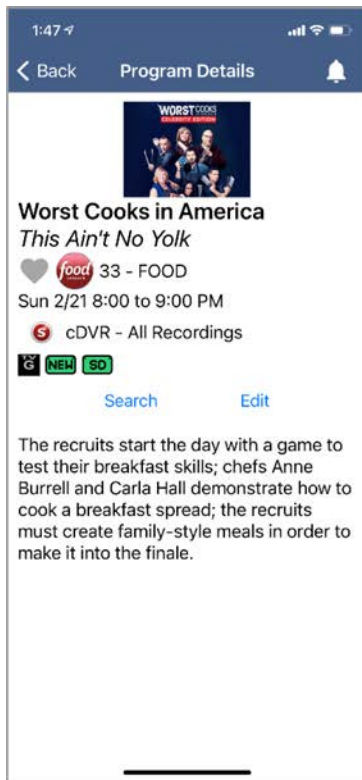

Currently Watching

To see what is currently playing, select **Currently Watching** from the MyTVs app menu.

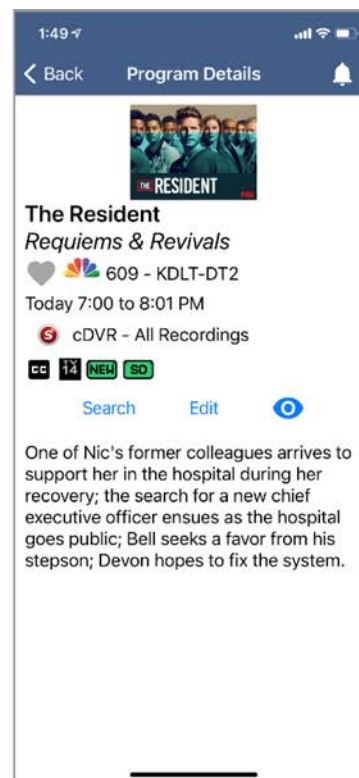

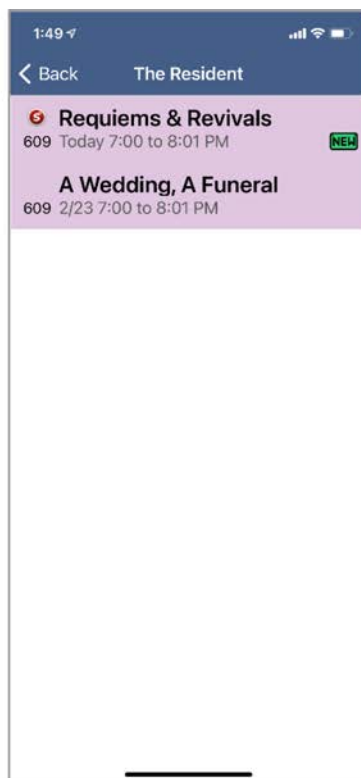

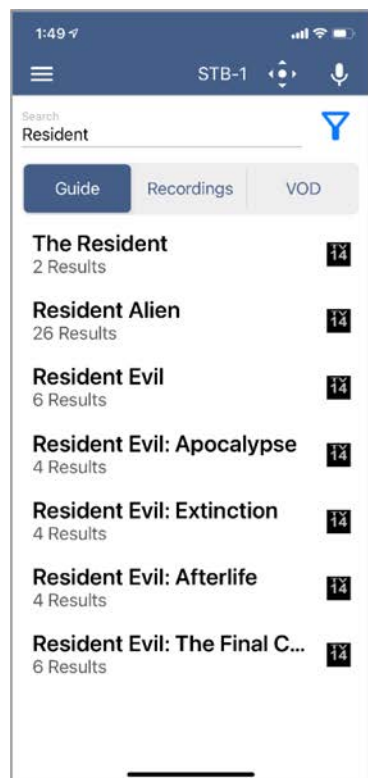

1. Search uses the universal search feature to look for additional show times, recordings or events.
2. Record allows the user to set a recording or series.
3. The eye icon allows for HLS viewing of that show on a device.

Recordings & Series

1. To show existing recordings, scheduled future recordings, and series recordings, select the Recordings button from the MyTVs menu.
2. To view existing recordings, select the Recorded option at the top of the screen. To view future scheduled recordings, select the Future option. To view Series recordings, select the Series option.
3. You also have options at the top of the screen to customize how your recordings are listed - Alphabetical or by Date. You can also show recordings Grouped or not grouped.
4. When you select a recording, a Program Details window will appear with the program description, the air date and time, and the channel number the program will be aired on. To delete the existing recording or a future scheduled recording, click on the blue edit button which will bring up a edit recording screen. This screen will give you program details and allows the user to edit Start Time, Stop Time and Folder. Click Delete Episode on the bottom of the screen to delete or Save Changes to any updates made.
5. When you select a Series Rule, an Edit Series Rule page appears. This screen allows you to edit the number of episodes saved, show type, start time, and folder where recordings are saved. Click Delete Series Rule to delete or Save Changes to any updates made.

Program Search

To search for a specific program, select Search from the MyTVS menu.

1. Enter the desired phrase or keywords into the search text field. Click on the search icon.
2. Results for the search will appear below the Search Text Field. Search results are available from Guide, and Recordings. By clicking on the different buttons under the search text field, a user will see results for the Program Search from each different section.
3. From the search results, a user can select the program or episode they would like to view, and a Program Details screen will appear with the program description, the air date and time, and the channel number.
4. In the Program Details window, click Search to view future programming or click Record to set a recording.
5. If your provider offer ReStart TV, you will have the ability to record the show or event from the beginning.

What's Hot

1. To view the What's Hot app, select What's Hot from the MyTVs Menu.
2. What's Hot will show the most watched TV programs, Recordings and Series Recordings.
3. To view the program information, select a program and a Program Details window will appear with the program description, the air date and time, and the channel number the program is aired on.
4. From this Program Details window, users can also search for more air times and set a recording.

Settings

1. A user can manage their account by clicking on Account Name and Device Name.
2. They can also switch to a different account or add another device.
3. Refresh ALL Data allows all settings, recordings and guide data to be refreshed and updated.

Voice Commands

1. Click on the Microphone icon at the top right-hand corner of the MyTVs app.
2. This will bring up a Voice Commands screen and show a list of available commands.
3. Click on the Microphone Button and speak the command.

*Note: You must have Microphone and Speech Recognition activated on your device in the MyTv settings.
